

Learning Management System

The itslearning LMS solution allows Oconee County Schools to truly personalize learning by putting curriculum resources, instructional strategies, objective-based lesson plans and assessments, all in one easy-to-access central location.

The platform provides countless ways for teachers:

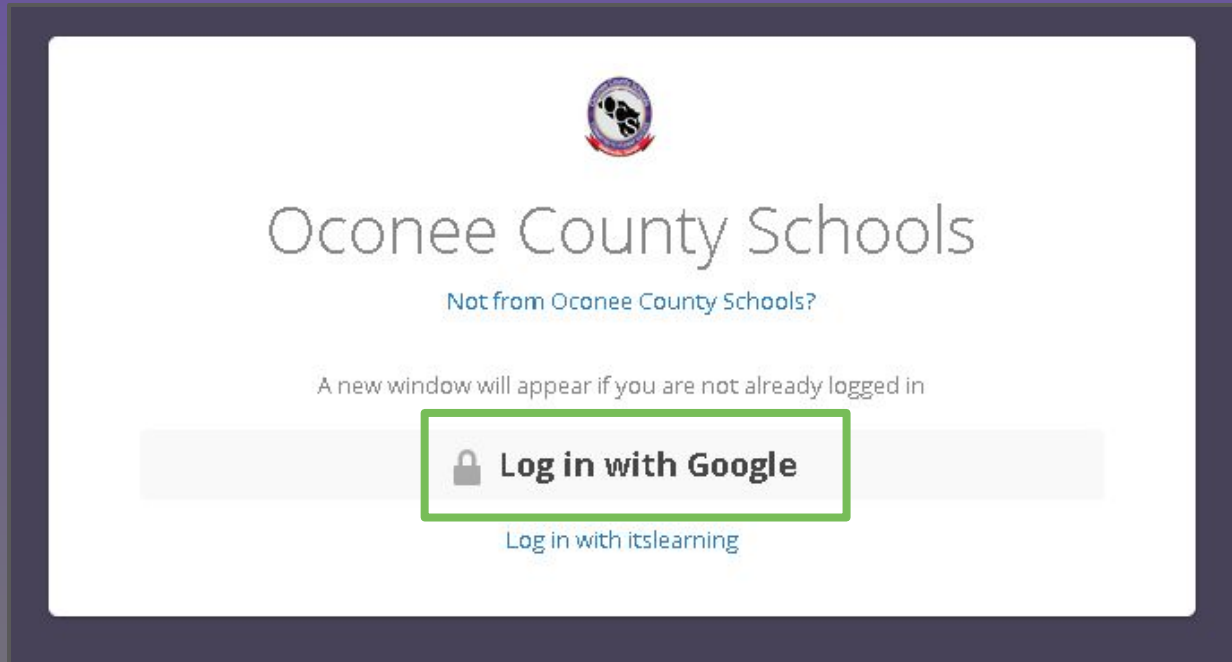

- to create engaging lessons and resources
- makes teacher collaboration and sharing of materials easy
- automates routine tasks so teachers have more time to focus on their students.

NEWS AND NOTES

WEEK OF AUGUST 13, 2018

We had an awesome first full week of school! I am really enjoying getting to know your children, and they are all doing a fabulous job adjusting to my classroom routines and expectations, as well as our school-wide behavior expectations. Next week we will begin our Mentor Sentence and 5-A-Day routines in Reading, start our place value unit in Math, identify and research some important places in the U.S. that students have to be able to identify for our Social Studies geography standards, and get an introduction to our first unit in Science, which covers our solar system. In PACE, we will begin a short unit on creativity as we implement our weekly routine activities, which include precept responses and logical/critical thinking activities.

Please go ahead and set aside the evening of August 20th on your calendars. I’ll look forward to seeing parents of my advanced content students at 6:00, followed by parents of PACE students at 7:00.

Enjoy your weekend!
