

# Environmental Science Club 2019-2020

Meets every Tuesday after school until 4:45pm

Sponsor: Windy Krasle

Email Ms. Krasle to join:

[wkrasle@oconeeschools.org](mailto:wkrasle@oconeeschools.org).

I need to know that you will attend. Please bring this permission form.

No dues

## Goals:

1. To develop, publicize and continue to implement a recycling program for classrooms and lunch waste
2. To maintain a cooperative relationship with environmentally focused groups such as "Clean and Beautiful."
3. To promote "Science Days" this year- We will use standards from each grade level to create fun activities relating to the Science curriculum for science classes to attend (with administrator and science teacher approval).
  - a. October: "An Environmental Scare"- looking at frightening pests, plants, weather or environmental conditions
  - b. Spring: "An Earth Day Celebration"- A broad variety of activities relating to Earth Day
4. We may arrange at least one field trip of interest for environmental education or community service.

My child has permission to stay after school on Tuesdays for club. I will have transportation home for my student at 4:45 on such days.
