

Oconee County Schools Chromebook Initiative

Oconee County Schools is a fully 1:1 school system, with all students in grades K-12 provided with a Chromebook. In today's digital world, our students greatly benefit from increased collaboration and creativity using digital tools. Your child will be receiving a chromebook on Friday, August 7. Students in grades K-12 may take their device home. Parents and students should read the [Technology Use Agreement \(TUA\)](#) and complete the [online registration](#) by August 31.

Here are some tips for taking care of your OCS chromebook!

- Designate a charging area in your house. - Charge your device NIGHTLY!
- Keep your device safe, clean, and away from food, candy, and drinks.
- Keep device and charger away from pets and siblings! Dogs love chargers.
- Bring device to school charged EVERY DAY. *Extra devices will not be available for student use.*

Need Chromebook Help?

If your device is not working properly, please complete your school's "Chromebook Help and Questions 2020-21" form. This can be found on your school's website, or you can check with your child's teacher for this link!
