

Career, Technical, & Agricultural Education

Career Pathways

A Career Pathway is a series of structured and connected courses designed to develop and enhance a student's core academic, technical, and employability skills while in high school. In Georgia, a student is a pathway completer when he or she completes three courses within a designated area of study. Students are encouraged to continue with their learning by participating in a work-based learning experience upon completion of the classroom courses.

Work-Based Learning Program (grades 11-12)

Work-Based Learning placements represent the pinnacle of the Career, Technical, and Agricultural Education experience. WBL is designed for students with a specific career focus related to courses (2) in a career pathway. Students work at an approved worksite related to career courses for part of the school day; own transportation must be provided. Credit is issued for 1.0 and 2.0 Carnegie units per semester based on the student's assessed performance. Students must obtain minimum work hours based on the

number of class units being earned:

1 block: 7.5 hours/week for 1.0 unit

2 blocks: 15 hours/week for 2.0 units

Additionally, students must:

- Receive positive evaluations on job performance and work ethics
- Progress successfully through training plans
- Complete career instructional assignments
- Comply with program rules

Students must complete an application process and meet requirements:

- 2+ courses in specific course pathway
- Identified career focus
- Acceptable attendance, discipline
- 78%+ numerical grade average
- Teacher recommendations
- Application and interview with Coordinator for approval
